We help our customers keep up with change

Crises, like the one we are currently experiencing, change people's behaviour. **Hygiene** has never been more important, and **sustainability** is a fundamental requirement. Increasing **digitalisation** has implications for every sector, and not all companies can easily overcome the challenges it entails. This is why it is exceptionally important to have a reliable partner at your side. Katrin is the specialist for clean, sustainable and insightful hygiene solutions for public washrooms and workplaces. Our product range includes hand towels, toilet paper, household towels and professional cleaning towels as well as dispenser systems, soaps, disinfectants and accessories.

All of our business activities are in line with the values of our Katrin brand:

We make sure that things are **EASY** for you and your customers:

- Clear and focussed offer
- Simple product range management

Our solutions are **INSIGHTFUL**:

- User-friendly, insightful, reliable and safe systems
- Reduced storage needs and lower warehousing costs
- Flexible adjustment to changing market and user needs

We are **TRUSTWORTHY** in every sense of the word:

- Constant and reliable availability and delivery of goods
- Consistently high product quality and functionality

Our approach is clean & green:

- with the perfect hygienic solutions, to reduce bacteria and lower cost-in-use
- All made with efficient use of traceable raw materials from Northern, certified forests

Katrin Brand

Our Katrin brand was launched in 1974 and was one of the first professional tissue brands in Europe. The name “Katrin” and the now familiar products under this brand come from the Swedish Metsä Tissue mill Katrinefors, which was named after the wife of the founder.

Katrin is “clean & green”

We provide safe hygiene solutions and sustainable growth. Everything we do, we do in a clean and environmentally conscious way.

Sustainability is part of our nature

Our unique value chain – from the forest to the end user – and being part of the Metsä Group ensure that our products, services and processes are always sustainable.

Well functioning solutions for every need

We help to choose optimum hygiene solutions that are tailor-made and fulfill our partners’ and customers’ different needs.

Easier everyday

With the Clean & Green promise, we guarantee you and your customers the necessary security for sustainable hygiene. So you can focus on your core business.

Today, Katrin is a well-known and widespread brand, especially in Northern Europe, which is also expanding steadily in other parts of Europe.

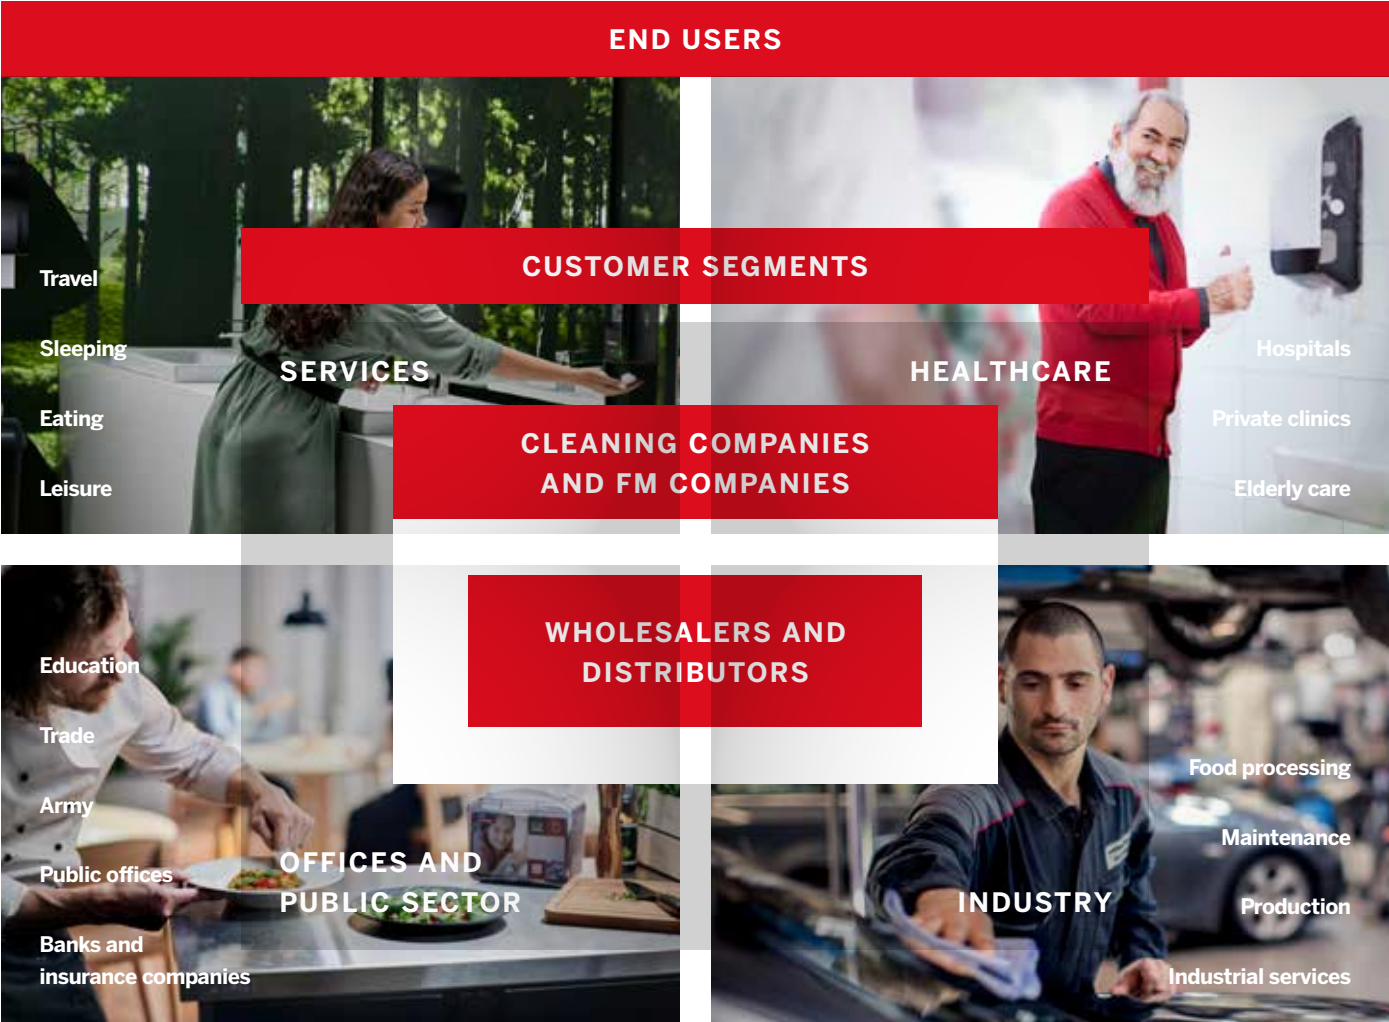

Our partners

We provide functional and environmentally-friendly solutions for each segment and each customer group.

To ensure that our products reach end users, we have developed insights into a broad range of businesses and built relationships with the right partners. Our offering and services deliver value for our partners and their customers.

HYGIENE SOLUTIONS FOR WASHROOMS AND WORKPLACES FOR:

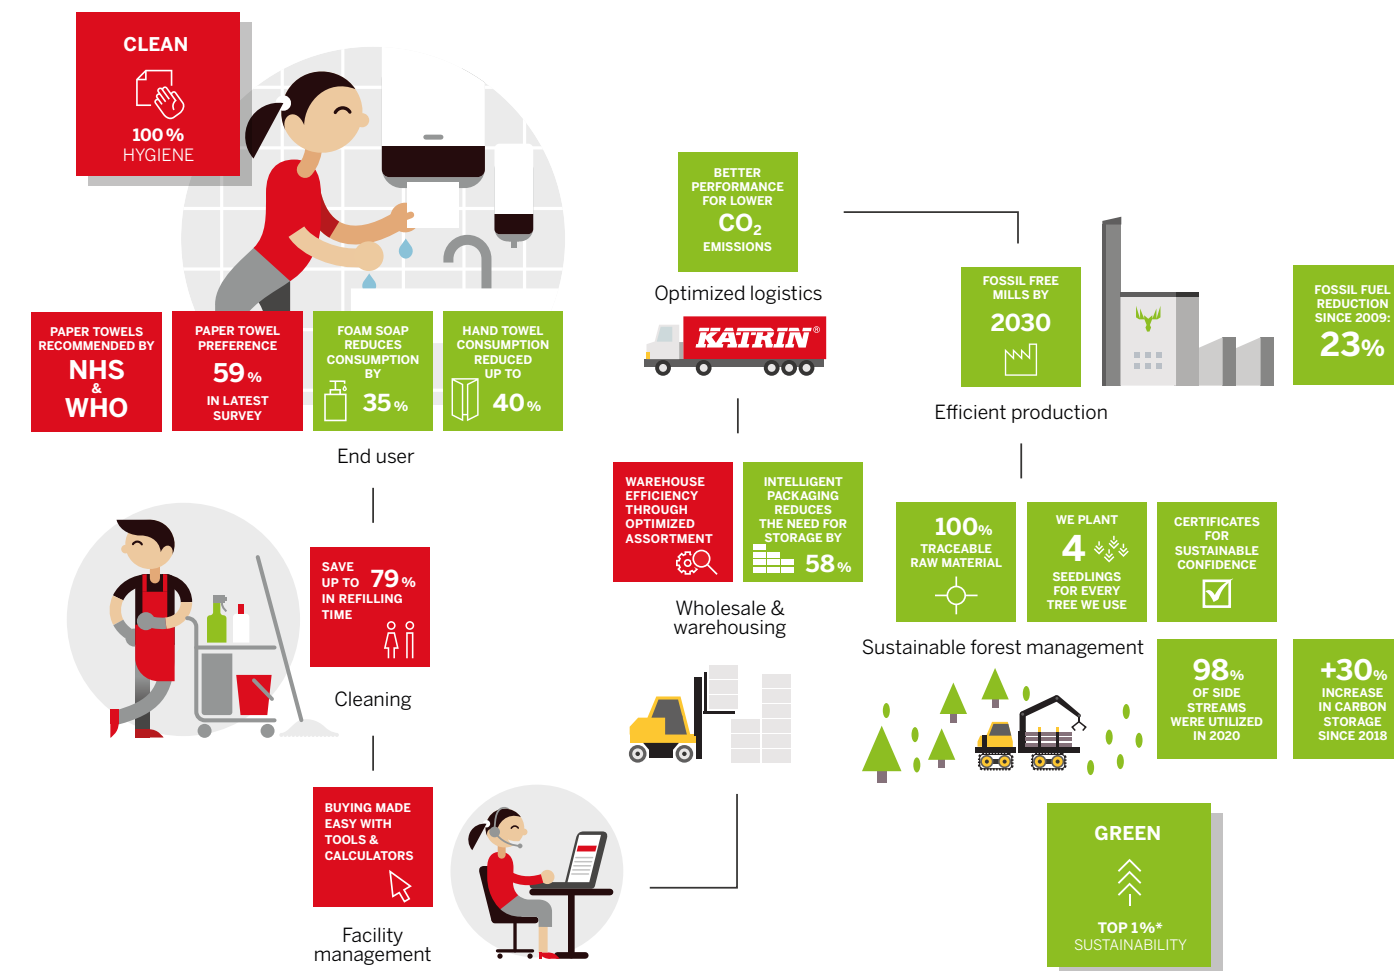

KATRIN IS “CLEAN & GREEN”

In order to make everyday life healthier, simpler and kinder to the environment, we ensure that our washroom solutions are hygienic, easy to use and sustainable. When you choose Katrin, you know you are making a wise choice.

Katrin is on a mission

Our “clean & green” mission consists of making workplaces, especially washrooms, clean and sustainable. We do this by making sure our products are hygienic and easy to use and by ensuring that our solutions are sustainable and responsible. This is what we guarantee with our unique value chain from forest to end user.

Here, you can see what “Clean & Green” means for us.

* Metsä Tissue is rated on Platinum level and top 1 % of all companies assessed by EcoVadis

Protect the environment at every step

Katrin considers the environmental impact at every step. Our unique value chain – from the forest to the end user – ensures that Katrin products are manufactured sustainably and reliably. Furthermore, we reduce product consumption and focus on circular economy. This minimises all environmental impacts: Time and effort required for maintenance, storage, transport and production.

Sustainability is part of our nature

We are truly “green” because we offer solutions with proven sustainability benefits and with minimum environmental impact: Metsä Tissue received the platinum award from EcoVadis and is among the top 1% of all rated companies. Our Katrin hygiene papers carry the “Nordic Ecolabel” or the “EU Ecolabel”.

Sustainable to the core!
Simply scan the QR code
and see why.

Minimised consumption and promotion of the circular economy help to design environmentally conscious washrooms.

- Efficient products, functional dispensers and an optimised product range to minimise consumption and waste generation
- Use of recycled plastic wherever possible
- Used hand towels can replace fossil fuels in energy production and contribute to the circular economy

Katrin Inclusive Dispensers – dispensers for everyone, everywhere

We have a fresh new look to our dispensers but they are still the same highly-functional devices inside - designed with both users and service staff in mind.

Handwashing as effective bacterial protection

Health authorities and various studies confirm: Washing your hands with warm water and soap is the best way to stay healthy because 80% of all infections are spread through contact. Unlike viruses, bacteria can multiply among themselves. We find them in places such as lift buttons, door handles, computer mice, keyboards, mobile phones, etc. For instance, an average desk contains 400 times more bacteria than an average toilet seat.

Proper handwashing reduces costs

The cost of good hygiene, as a means of preventative health care, is tiny, compared to the losses which can be incurred through illness. Staff absence results in both direct costs due to health care and indirect costs in the form of substitutes, missed customer appointments or even delivery difficulties. A complete hygiene system with the right paper, dispensers, soap and accessories delivers the best possible hand hygiene. It quickly pays for itself and supports your company's productivity.

Hand washing – an easy formula without side effects

The World Health Organization recommends the following for good hand hygiene:

- Regularly wash your hands.
- Wash your hands with soap and warm water.
- Since bacteria reproduce better on wet hands than on dry ones, thoroughly dry them with a disposable hand towel. The paper hand towel ensures that bacteria are mechanically removed.
- Use alcohol-based disinfectants if you do not have direct access to water and soap.

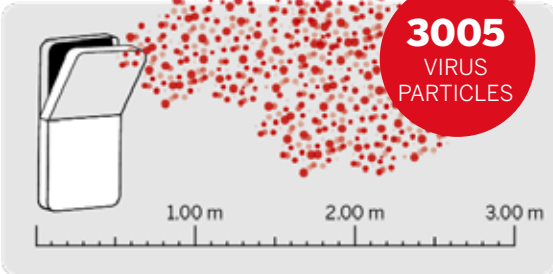

This is how hand hygiene becomes a piece of cake.

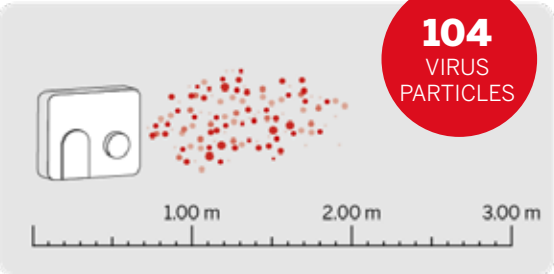

Katrin Paper Towels – Hand drying on the test bench

Paper hand towels are the most hygienic way to dry your hands*
This is because using disposable hand towels poses the lowest risk of spreading viruses. Research and studies have shown that air dryers increase the number of bacteria on your hands and in the surrounding air. This is why the hygienic advantages of paper hand towels should be the focus when deciding on a drying system.

Katrin Paper Towels – the Benefits

For Katrin, hygiene and cleanliness are key to effective washroom management. The optimally co-ordinated dispensers and paper are perfectly suited for use in all types of washrooms. The robust, lockable dispensers allow for the hygienic dispensing of paper towels, while the ingenious Katrin Systems technology ensures that the paper towels are dispensed in the right sheet size.

Maximum comfort – optimum absorption – minimum consumption – certified quality

- Premium, hypoallergenic tested paper hand towels dry your hands by absorbing the moisture, removing unwanted microbes and, furthermore, stand out due to their excellent skin compatibility, even with exceptionally sensitive users.
- By properly washing and subsequently drying your hands with a paper hand towel, the number of remaining bacteria is significantly reduced.
- Using high-absorption paper reduces maintenance expenditures, purchasing volumes, purchasing costs and consumption.
- The right paper quality (format, strength, properties) minimises the amount of waste and environmental impact.
- Katrin paper towels have EU Ecolabel and Nordic Ecolabel certification.

CHANGE IN THE NUMBER OF BACTERIA IN PERCENT¹

The Katrin washroom concept

The Katrin washroom concept was developed to meet hygiene requirements in washrooms with low to high traffic, and where user expectations varied from simple to exclusive solutions.

The key to success is an adequate and uniform, well-functioning dispenser programme that covers the most important applications and paper qualities and reflects the expectations of customers.

The right washroom hygiene solution depends on the number of washroom user visits per day. For instance, if there is high user traffic, then we recommend a high-capacity washroom solution.

Generally, visitors' expectations vary according to the location and visitor frequency (high or low). Among other things, the increased expectations include better quality hand towels, softer toilet paper, more gentle soaps as well as more elegant dispensers and accessories.

Katrin's solutions are planned down to the slightest detail. Toilet paper dispensers and hand towel dispensers, soap dispensers and waste bins form a well-conceived unit. This optimises consumption and reduces waste, as well as reducing the effort required for maintenance.

Less is more – Products with optimum performance save resources

'Less is more' is the Katrin ethos: it is the standard of quality and environmental protection which drives the design of our products. This includes the comprehensively-designed Katrin range of functional, robust dispensers with matching towels and toilet paper. Controlled consumption of paper means clean and pristine towels are available at all times, reducing consumption whilst optimising your hygiene offer. This is equally important across all public areas such as offices, schools, restaurants, hospitals and industrial workplaces of all kinds.

THE BENEFITS OF MINIMISED CONSUMPTION

- Lower purchase, storage, handling, and operation costs
- Longer time between refills and less waste – which saves time for service personnel.
- Less waste
- Reduced impact on the environment

THE BENEFITS OF MINIMAL HYGIENE RISKS

- Healthier staff and resulting reduction of absenteeism
- Reduced spread of bacteria
- Reduced incidence of coughs, colds, flu and stomach ailments, including gastrointestinal infections

Minimal waste due to the effective stub roll function.

The Katrin Inclusive Dispensers – A practical approach to creativity

A comprehensive range of dispensers for the most important room in the world

The dispenser range was designed in collaboration with industry experts and a wide variety of end-users. Our mission was to create dispensers that are as accessible as possible and can easily be used by almost anyone, anywhere. Inclusive design focuses on the broader scope of users: young and elderly, able-bodied and those less able-bodied. In our view, everyone has a right to a pleasant washroom experience.

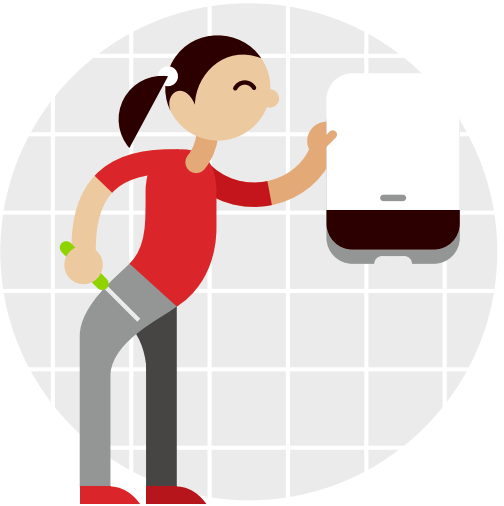

- Pleasant and simple to use
- Attractive appearance and design for every setting
- Better standard of hygiene
- Long service life
- Easy to fill and maintain
- Locking function
- Effortless and efficient cleaning
- The right capacity, whatever the number of visitors reduces refilling and maintenance effort
- Reduction in running costs
- Compatible with all Katrin tissue papers
- Inclusion-friendly

Understanding all needs

Thanks to its inclusion-friendly design, the Katrin Inclusive Dispenser can be placed anywhere for ease of use by almost everyone. This is beneficial especially for public institutions, which must comply with state guidelines for accessibility. E.g. the European Accessibility Act sets guidelines reinforcing state and local regulations.

Certified Security

Our certificates ensure that our customers know that our cleanliness products are made responsibly from ethical suppliers and certified forests and are safe to use. We stay true to our quality standards to guarantee that our cleanliness solutions provide the best hygiene that everyone deserves.

Features and Benefits
For personnel and users

Fully opening cutting mechanisms.

The fully upward opening cover, e.g. for the System Towel Dispenser, makes accessing, refilling and maintenance easy.

Transparent side panels make it easy to check if refilling is needed.

The full-face push cover makes dispensing easy.

The dispensers are also easier to use for the physically impaired.

Braille text helps visually impaired users to use the dispenser.

A quick and hygienic way to wash and dry hands with hypoallergenic tested tissue papers

Contrasting colours make the dispenser easy to locate.

Katrin System Products: For high traffic washrooms

We provide a complete range of functional, robust dispensers and matching hand towels and toilet papers. The dispensers are elegantly shaped, contain only a small number of parts and are very easy to refill. Because they control paper usage, and present the paper to the user, only clean and previously untouched products are dispensed. This not only minimises consumption and with it your costs, but it also allows you to offer a completely hygienic solution.

THE BENEFITS AT A GLANCE:

- Thick paper hand towels for hygienic drying results
- Faster and higher absorbency
- High quality and density

Easy to load
with a variety
of grades
of paper

Katrin System Hand Towel High capacity and minimised Consumption

Our hand towel paper is softer and even more absorbent than ever before. As a result, 1–2 sheets are sufficient for hand drying.

KATRIN INCLUSIVE System Towel Dispenser

403 x 335 x 216 mm
○ 90045 | ● 92025

400 x 280 x 228 mm
○ 82094 | ● 82070
For Medium and Large Rolls

- Keyed or keyless – same key fits all
- Controlled usage, one sheet at a time
- When paper is not visible, there is an easy-to-use PUSH bar for paper feeding
- Braille instructions are provided for visually impaired on the PUSH bar
- Transparent sides show how much paper is left at a glance
- Controlled consumption, minimum resistance to draw and high capacity: 577 – 1176 sheets per roll depending on quality and roll size
- Stub roll function (90045/92025 only)
 - Automatic, drop-down at 75mm
 - Load second roll – not used until stub roll is empty
 - Core easily removed from the side
- Transparent back plate makes installing the dispensers easier

- Requires 82070/82094 XL dispenser

Katrin System toilet tissue – High capacity and minimised consumption

Our Katrin System toilet papers come with a new 3-point embossing which is soft to touch. They are manufactured using one of our state-of-the-art facilities. The previous embossing was bland and flat, to hold the plies together. The new method is only glued at the 3 points of emboss, creating an appealing appearance and, more importantly, a more pleasant feel to the skin.

KATRIN INCLUSIVE System Toilet Dispenser with Core Catcher

402 x 154 x 174 mm
○ 77465 | ● 77472

- Integrated Core Catcher
- High capacity – holds two rolls with drop-down roll system, 1600 sheets
- Keyed or keyless – same key fits all
- Easy and quick to refill even while the second roll is in use, so tissue is always available
- Transparent sides show how much paper is left at a glance
- Self presenting – no searching around inside the dispenser opening for the loose end of the paper roll
- Transparent back plate makes installing the dispensers easier
- Available without Core Catcher (104605 Black/104582 White)

Katrin Hand Towel Dispensers – For high and low traffic washrooms

For washrooms with low to high consumption, the folding paper towel Katrin Inclusive Dispensers are available in two sizes: M and Mini. For easy refilling, the M-size folding paper towel dispenser can open upwards, while the Mini-size dispenser opens downwards.

KATRIN INCLUSIVE Hand Towel Dispenser M

450 x 301 x 146 mm
○ 77410 | ● 77434

- Available in two sizes: Mini and Medium
- The cover opens upwards for Hand Towel M and downwards for Hand Towel Mini for easy refilling
- Keyed or keyless – same key fits all
- Supporting ribs hold the stack of tissues in the Hand Towel M Dispenser, making dispensing easier and keeping the stack in place when refilling the dispenser
- Katrin Hand Towel Medium functions with all Katrin folding tissue paper types: Non Stop, Zig Zag and C-Fold
- Katrin Hand Towel Mini Dispensers are designed for small spaces. Suitable Katrin products are Narrow Non Stop folded Hand Towels (have a maximum width of 210mm)

KATRIN Hand Towel Dispenser Mini

350 x 248 x 114 mm
○ 90182 | ● 92087

Katrin Folding Paper Towels– Hand hygiene with sustainable benefits

Whether Non Stop, Zig Zag or C-fold:
Users prefer high-quality, hypoallergenic-tested paper towels because they dry hands
and remove bacteria through mechanical friction.

This is an important driver for promoting hand-drying, through paper towels which
are hygienically delivered through functional dispensing systems. Katrin folding paper
towels are kind to skin. With extremely absorbent sheets in just the right size, usually
a single paper towel is all it takes. This makes them economical to use, reducing
purchasing, storage, handling and operating costs.

Katrin Toilet Dispenser– For large and small washrooms

The Katrin Gigant Dispensers, in sizes L and S, are particularly well-suited for areas with frequent use. The new flexible roll brake improves paper feed, with additional tear-off edges to make paper easier to tear. Less searching for the lost end of the paper roll, thanks to the newly designed paper-removal area. The Katrin Bulk Pack Solution is ideal for higher volume areas, and delivers self presenting sheets of soft 2 ply tissue.

Katrin Centerfeed Dispensers – dispensing product from the centre of the roll

Hand towel rolls can be used as hand towels in public washrooms or as professional wiping towels in a variety of industries, including the catering sector. The advantages of hand towel rolls include their versatility and the ease of use of the dispenser systems. Katrin roll dispensers are fitted with a safe-cutting system and cut cleanly, without paper dust, thanks to the optimised tear-off edges.

Katrin industrial wipes and industrial roll dispensers– For all surfaces

In industrial workplaces, employees need paper towels and dispensers that can withstand the demands of professional use. The requirements of various industrial drying products are often complex. A single cloth may not be able to meet all the needs of industry. The products should be suitable for cleaning, wiping and polishing – and versatile enough for use against a variety of surfaces with varying impurities. That's why Katrin has developed different towels for different professional requirements. As important as it is to keep machinery and equipment in good working order, it is just as important to give employees the means to protect their hands and to keep them free of dirt, oil, grease and chemicals.

- For every industry**
Industrial work requires specifically designed professional wiping and cleaning solutions that take into account different industry requirements.
- For all surfaces**
Professional wiping demands different features, depending on what is being cleaned, the type of surface is and the desired end result.
- Katrin – for all needs**
Katrin's product range is continuously tested and developed. It includes the right solution for all professional and industrial wiping requirements.

Find here the tutorial video how to best demonstrate the different industrial wiping products from Katrin. Just scan QR Code.

Katrin blue wiping rolls

A blue, clearly identifiable paper towel, e.g. for use in the motor-vehicle industry, workshop setting and the food industry. Very absorbent, strong whether wet or dry, and ideal for drying hands.

KATRIN TIP

- The surface to be wiped is important
- Uneven and sharp surfaces require a strong wiping material
 - A rubber surface, for example, places extra demands on the friction resistance of the wiping material

Katrin Table Top Napkins

These multi-function napkins are soft to touch and very absorbent, and extra absorbency means better cost in use.

These individual, food safe, self presenting napkins are ideal in any hospitality area but can also be used as a mobile hand towel, wherever required.

Filling couldn't be easier, with our new mobile Katrin napkin dispenser, which keeps the Table Top napkins clean, dry and always hygienic. The dispensers have a rubberised base to stop any slippage, and are spring loaded for easy access. A transparent design lets you see at a glance how many napkins are left.

87273 KATRIN PLUS Paper Napkins 140 Sheets

- White, 2-ply
- 255mm x 155mm
- 140 napkins x 21 sleeves (2940 napkins)
- 20 cases/pallet
- Dermatologically tested and approved
- Certified for short-term contact with food
- Certified under the Nordic & EU Eco labels

22564 KATRIN Napkin dispenser

- Transparent, grey
- W191 x H159 x D124 mm
- 1 dispenser/box
- Rubberised base for stability
- Spring loaded for easy access to consumables
- Simple filling and maintenance

Katrin stands for well-being, care and functionality in hygiene facilities in healthcare, industry, restaurants, hotels, schools and other public toilet facilities. Their aim is to give you the best possible conditions to offer your guests the best hygiene solution so that you can concentrate on business. Everyone is a winner when your toilet is equipped with the right paper, suitable dispensers and other accessories. Users can maintain good hand hygiene and the service staff will save time because the toilet is simple to keep clean and fresh. Working together with Katrin we want to make our customers' lives simple and improve their business. We offer tailored solutions based on your needs.

Metsä Tissue is one of Europe's leading tissue paper suppliers to households and companies as well as one of the leading suppliers of baking paper globally. Metsä Tissues own the following trademarks: Lambi, Serla, Tento, Mola, Katrin and SAGA.

Katrin is a part of the Metsä Group, which is one of the world's largest forest industry groups.
